Tools & Platforms: Python, SQL, Power BI, Tableau, Streamlit, Mixpanel, Vercel, Claude Code, Excel, Google Workspace, Project Management

PROFESSIONAL EXPERIENCE

Customer Success Manager <i>Convosight — Gurugram, India</i>	Apr 2026 – Present
- Own end-to-end customer success for five global Fortune-level accounts — P&G (Asia, ~\$500K), PepsiCo (Asia, Americas, ~\$138K), Takasago (Americas, EU, Asia, ~\$120K), Winland Foods (US, ~\$120K), and Sun Pharma (South Africa, Thailand, Nigeria, ~\$36K) — spanning FMCG, Flavour & Food, and Pharma, with combined ARR of \$914K, delivered through the full Convosight product suite. - Lead onboarding and drive product adoption by solving live client use cases on-platform, showing how the product resolves their business questions — translating consumer voice into decisions across brand, marketing, and innovation. - Act as day-to-day trusted advisor: resolve queries, deepen platform usage, and grow account health, satisfaction, retention, and expansion. - Build a proactive account health framework — segmenting accounts by usage signals to flag risk early and identify expansion opportunities — turning reactive support into a repeatable retention and growth motion.	

Senior Analyst — Consumer Insights & Social Intelligence <i>Convosight — Gurugram, India</i>	Dec 2024 – Mar 2026
- Served as sole point of contact across the full report lifecycle, from initial client briefing calls through final delivery, personally presenting all 50+ executive-ready analyses to clients across 3+ international markets, while generating the highest revenue on the team (INR 2.6 Cr) with zero missed deadlines across multi-market, multi-phase studies. - Proactively identified and automated a manual internal reporting process by building two tools: an influencer vetting platform, and a separate platform combining sentiment analysis and a purchase intent classification model, using Python, Vercel, and Claude Code to ship quickly, saving 5–6 man-hours per day across the team. - Monitored sentiment and campaign effectiveness across 5+ digital channels for 10+ global brands; one client called a deliverable the best insights report they'd seen in over a decade in social listening. - Collaborated with product, engineering, and marketing to integrate social performance data into client workflows, supporting A/B testing across 3+ campaigns.	

Data Analyst <i>Sundaram-Clayton Limited — Chennai, India</i>	Jul 2023 – Oct 2024
- Built and maintained 10+ Power BI and Excel dashboards across Marketing, Finance, and Sales, optimizing business operations by 20% while holding SLA data quality standards. - Coordinated across 5+ divisions to investigate and resolve data discrepancies, saving 5–6 hours weekly through structured reporting improvements.	

EDUCATION

MBA, Business Analytics BML Munjal University	Aug 2021 – Mar 2023
B.Com (Hons) Medi-Caps University	Aug 2017 – Jun 2021
